### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Ruth Tyler-Cross on 5/19/2009.

The claims has been amended as follows:

1. (Currently amended) Apparatus that uses a camera instead of a scale to determine prices of products priced by weight, comprising:

one or more cameras for generating a digitized visual image of a product;  
means for identifying the product by type based on a the digitized visual image;  
means for determining a volume of the identified product based on the digitized visual image;

means for providing a price/weight ratio;

means for determining a density of the identified product from a database of lookup tables which include density information for a plurality of products; and

a computer terminal which is configured to compute a weight of the identified product as a function of volume, a [and] density of the identified product, and a price of the identified product as a function of the price/weight ratio, wherein said apparatus does not include a scale.

7. (Currently amended) A method of determining a product weight and calculating a product price based on a volume and type of the product determined from a digitized visual image generated by a camera, without using a scale, comprising the steps of:

generating the digitized visual image of the product with a the camera;  
identifying the product by type using the digitized visual image;  
determining a volume of the product from the digitized visual image of the product;

[and, determining the product weight and calculating the product price without using a scale by]:

accessing a database of densities of a plurality of products and determining a density for the product type identified in the identifying step;

calculating a weight of the product as a function of volume and density without using the scale;

providing a price/weight ratio for the product, and

calculating a price of the product as a function of the [a] calculated weight and the [a] price/weight ratio, thereby determining the product weight and calculating the product price based on the volume and the type of the product as determined from the digitized visual image generated by the camera, and without using a scale.

2. The following is an examiner's statement of reasons for allowance:

Regarding the independent claim 1, the prior art of record fails to disclose a computer terminal which is configured to compute a weight of the identified product as a function of volume, a density of the identified product, and a price of the identified product as a function of the price/weight ratio, wherein said apparatus does not include a scale.

Regarding the independent claim 7, the prior art of record fails to disclose a method of determining a product weight and calculating a product price based on a volume and type of the product determined from a digitized visual image generated by a camera, without using a scale, as is claimed by the applicant. Specifically, the prior art of record fails to teach: accessing a database of densities of a plurality of products and determining a density for the identified product type; calculating a weight of the product as a function of volume and density without using the scale; and calculating a price of the product as a function on the calculated weight and the price/weight ratio.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuy-Vi Nguyen whose telephone number is 571-270-1614. The examiner can normally be reached on Monday through Thursday from 8:30 A.M to 6:00 P.M.
